Section 1:

- 1. Introduction
- 2. JDK Components
- 3. Identifiers and keywords
- 4. Data types
- 5. Variables
- 6. Operators
- 7. Control statements
- 8. Functions

Section 2:

- 1. Java class members
- 2. Scanner class
- 3. Arrays
- 4. Class and Objects
- 5. Java memory areas
- 6. Blocks
- 7. Constructors
- 8. Non-Primitive array
- 9. Constructor overloading
- 10. Inheritance
- 11. Constructor chaining
- 12. Has-A relationship
- 13. Method overloading
- 14. Method overriding
- 15. Abstract class
- 16. Integers
- 17. Type casting
- 18. Encapsulation
- 19. Polymorphism
- 20. Absrtaction

Section 3:

- 1. Object class method
- 2. String class
- 3. String builder and String buffer
- 4. Wrapper classes
- 5. Exception handling
- 6. File handling
- 7. Java collection frameworks
- 8. Multithreading
